Education

Apr. 2025 ~ Present	**The University of Tokyo** *Ph.D. Student* Department of Information Physics & Computing, Graduate School of Information Science and Technology. **Research Theme:** Towards emotional, expressive speech generation model based on linguistic analysis of speech token and automatic evaluation of acoustic signals *Advisor: Yuki Saito*	Tokyo, Japan
Apr. 2023 ~ Mar. 2025	**The University of Tokyo** *Master's Degree* Department of Electrical Engineering & Information Systems, Graduate School of Engineering. **Thesis:** A Study on Analysis of Discrete Speech Representation Using Self-Supervised Learning Model and its Application to Speech Synthesis *Advisor: Daisuke Saito* *GPA: 3.0 / 3.0*	
Mar. 2016 ~ Feb. 2022	**Sogang University** *Bachelor's Degree* Major in Artificial Intelligence, Department of Electronic Engineering, School of Engineering. **Thesis:** Development of an Interactive Voice User Interface in Kiosk System Using Deep Learning *Advisor: Hyung-Min Park* *GPA: 3.54 / 4.3* (Military Service Period: Nov. 2017 ~ Aug. 2019)	Seoul, Korea

Research Interests

- Speech Synthesis / Speech Language Model
- Speech Evaluation / MOS Prediction System
- Self-Supervised Learning Models / Neural Audio Codecs
- Post-training with Reinforcement Learning
- Generative models (Autoregressive, Diffusion model)

Skills

Technologies

• Libraries	PyTorch, Transformers, librosa etc.
• Programming Languages	Python, C, MATLAB, shell etc.
• Software Development Tools	Git, Docker, Jupyter, Codex etc.

Spoken Languages

Korean (Native), English, Japanese (Near Native), Chinese (Fully Professional)

Honors and Scholarships

Apr. 2026 ~ Mar. 2028	**Japan Society for the Promotion of Science Doctoral Course Research Fellowships (JSPS DC2)** 225,000 JPY/month + Research Funds
Jun. 2025	**Best Paper Award** Sound Symposiums 2025
Dec. 2024	**Best Student Paper Award (LY Corporation Award)** 154th Conference on Spoken Language Processing (SLP)
Apr. 2022 ~ Mar. 2026	**Japanese Government (MEXT) Scholarship** 147,000 JPY/month
May. 2021	**Best Undergraduate Paper Award** Korean Information Science Society

Research Experiences

Jul. 2026 ~ Sep. 2026	**Music and Audio Computing Lab, KAIST** *Visiting Research Student* Research on vocal coaching models, fake music detection, and speech neural audio codecs.	Daejeon, Korea
Apr. 2025 ~ Mar. 2026	**LY Corporation** *Industry-Academic Collaborative Research*	Tokyo, Japan

	Research on generating speech-to-face expression generation for virtual avatar.	
Jun. 2024 ~ Jul. 2024	**Darrell Group, University of California, Berkeley** *Visiting Research Student* Research on analyzing the language of text-derived tokens from various modalities, including visual, auditory, and multimodal media.	California, USA
Apr. 2022 ~ Mar. 2023	**Saruwatari & Koyama Lab, The University of Tokyo** *Research Student* Research on self-supervised learning and generative model on speech synthesis for post-filter signal processing used in speech enhancement.	Tokyo, Japan
Oct. 2021 ~ Mar. 2022	**Intelligent Information Processing Lab, Sogang University** *Internship* Development of dialogue system and speech synthesis in *IIPERIA*: Intelligent Information Processing with End-2-end Representation for Interactive Assistant.	Seoul, Korea
Jan. 2021 ~ Jun. 2021	**Auditory Intelligent Lab, Sogang University** *Internship* Development of *SGRecognizer* Demo: Korean unlimited vocabulary speech recognition system using Kaldi.	Seoul, Korea

Work Experiences

Oct. 2025 ~ Oct. 2026	**Spellbrush** *Researcher (Part-time)* Research on speech generation in multimodal dialogue models and video generation models.	Tokyo, Japan
Oct. 2024 ~ Jun. 2025	**Cygames Inc.** *Researcher (Part-time)* Research on real-time foley sound synthesis in the virtual environment.	Tokyo, Japan
Aug.2024 ~ Dec. 2024	**Preferred Networks Inc.** *Researcher (Internship)* Research on multilingual emotional speech synthesis with spherical vectors and discrete speech tokens.	Tokyo, Japan
Jan.2024 ~ Feb.2024	**NTT R&D** *Researcher (Internship)* Analysis towards G2P-free speech synthesis using text-speech token encoder through hidden unit T5.	Kanagawa, Japan
Aug.2023 ~ Oct. 2023	**DeNA Co., Ltd.** *AI Specialist (Internship)* Improvement and implementation of cross-lingual voice	Tokyo, Japan

conversion for products.

Apr. 2023 ~ Mar. 2026	**CoeFont Co., Ltd.** *Researcher (Part-time)* Improvement and acceleration of the self-supervised learning framework to create natural and real-time speech synthesis and voice conversion.	Tokyo, Japan
Sep. 2020 ~ Jun. 2021	**Samsung Medical Center** *Research Assistant (Part-time)* Optimization of classification model and distillation of datasets for detecting diseases from cardiac MRI.	Seoul, Korea

Teaching and Educational Experience

Oct. 2023~ Jan. 2024	**Software II** *Teaching Assistant* Course for Second year students for Department of Electronic and Information Engineering, Faculty of Engineering, The University of Tokyo.	Tokyo, Japan

Other Projects & Experiences

Jan. 2025~ Sep. 2025	**jarre.ai** *Team Leader, Product Designer, AI Engineer* Student-based startup project, with theme of 'Text-based AI implementation solution tool for video games'. Selected project for 2025 UTokyo Spring Founders Program.	Tokyo, Japan
